Changes in TRAIN

TRAIN users will see the following options on each member record associated with their Training Center:

- Opt In to Training Email Notifications
- Opt Out of Training Email Notifications
- Reset Member's Opt In/Out Preference

(A reset removes the previously selected preference and displays the notice on the member's TVC.)

Local Training Centers may assist their members with selecting a Training Email Notifications preference using this functionality.

IMPORTANT: If the member record does not have a Primary Email Address and Training Center assigned, the Member Training Email Notifications functionality will not be displayed.
